

# MATERNAL AND INFANT CARE

 Patient Care Solutions

Universal | Hospital | Services™

## EQUIPMENT SERVICES FOR YOUR TINIEST PATIENTS AND THEIR MOTHERS

Higher survival rates of low gestational age infants. Increasing numbers of multiple births. Demands by neonatologists for the latest technology. Caring for infants is an intense and costly practice. Equipment-based Maternal and Infant Patient Care Solutions from UHS can help you better manage resources and costs while achieving optimum outcomes for your most precious patients.

---

### Responsive management of critical equipment

UHS Maternal and Infant Patient Care Solutions are designed to provide the technology you need in labor and delivery, the nursery, and the Neonatal ICU. Your caregivers work 24/7 and so do we, providing quick access to all types of equipment for newborn care. All equipment is delivered clean, expertly maintained and patient-ready. So your caregivers can focus their attention where it needs to be—on your littlest patients.

### Making your hospital baby friendly

Infant care technology is highly specialized. Problem-free access to the right technology helps support successful infant outcomes. UHS makes that happen through customized equipment rental and biomedical service programs. Caregivers get the equipment they need. Managers get reports and documentation for decision-making and regulatory compliance. And your facility stays on the leading edge of infant care while maintaining operational efficiency and financial viability.

### Maternal and Infant Care Solution Options

#### Rental

- Just-in-time peak need rental
- Long-term rental agreements

#### Biomedical Service

- Comprehensive biomedical maintenance and repair for your equipment

#### Sales

- Equipment sales
- Disposables and supplies

## Program benefits

- Access to advanced technology without capital expense.
- Flexible rental programs help you manage census peaks.
- 24/7 access to equipment that is delivered clean, expertly maintained and functional with the right software and accessories.
- Easy access to reporting and documentation for The Joint Commission and other accreditation programs.
- Rental, sales and biomedical service for nearly all types of medical equipment.

## Service and support

- Comprehensive biomedical programs that include regulatory support and documentation.
- Order and manage equipment, and access reports, online anytime with MyUHS.
- Asset360™ Equipment Management Program assumes responsibility for fleets of equipment.
- Asset recovery service turns unneeded equipment into funds for new purchases and upgrades.
