

ORDER, MANAGE AND TRACK YOUR EQUIPMENT

Monitor the pulse of your UHS medical equipment with one convenient online tool: MyUHS™. Through this secure portal, you can order and track equipment, manage inventories, access invoices, generate reports and much more. MyUHS is designed to make equipment management fast and easy for busy caregivers like you. Contact your UHS Representative today for a demo!

Order

MyUHS streamlines the equipment ordering process. Our 24/7 information system continually processes orders - so you don't have to "call and leave a message." With MyUHS online ordering, you get the patient-ready equipment you need, when you need it.

Manage

MyUHS gives you access to powerful tools for efficiently managing inventories of on-site and stored equipment. You can easily track equipment location, patient use and equipment availability.

Report

MyUHS generates accurate reports on numerous aspects of equipment management, making your compliance efforts easier.

Report Types:

- Rental equipment
- Technical services equipment
- Equipment-related patient information

Report Features:

- Formatted for PDF or Excel
- Includes links to current and previous invoices

MyUHS Features:

- Order equipment
- Manage equipment
- Request service
- Manage patients
- Run reports and analytics

Contact your UHS Representative to request access or schedule a demo of MyUHS.
