

RESPIRATORY THERAPY

 Patient Care Solutions

Universal | Hospital | Services™

GIVING PATIENTS THE RESPIRATORY CARE THEY DESERVE

Equipment-based Respiratory Therapy Patient Care Solutions from UHS provide the technology and service needed for optimal care of respiratory patients. By acquiring, providing and maintaining the latest in respiratory technology, we help your caregivers focus more on caring for their patients and less on equipment issues.

Solutions that let everyone breathe easy

An unexpected census spike. A seasonal flu outbreak. UHS Respiratory Therapy Patient Care Solutions answer these challenges by giving you quick, 24/7 access to expertly maintained RT equipment delivered patient-ready. Our large inventory means your caregivers get the exact model of equipment they already know how to use. And our customized rental programs can give you the cost savings benefits of long-term rental plus the flexibility to meet peak and seasonal equipment demands.

The equipment you need, when you need it

The Respiratory Therapy Patient Care Solutions provide the right RT equipment when and where your caregivers need it. You reduce costs, reduce risk, simplify equipment management and are better equipped to care for your respiratory patients.

Respiratory Therapy Solution Options

Rental

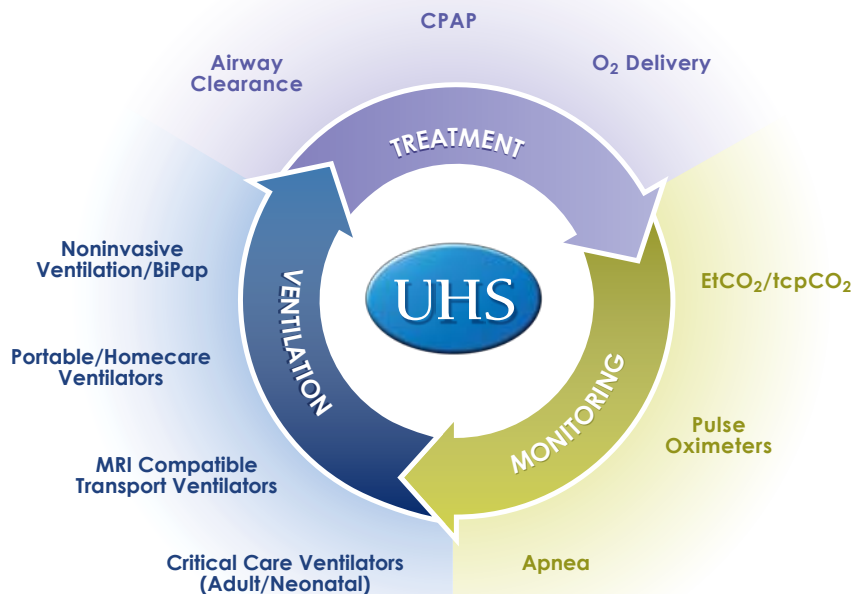

- Seasonal rental programs
- Just-in-time peak need rental
- Long-term rental agreements

Biomedical Service

- Comprehensive biomedical maintenance and repair for your equipment

Sales

- Equipment sales
